

# BG Series Vibrator

Since 1972 OMB is specialized in designing and manufacturing electric and pneumatic vibrators which meet the specifications required by most fields of application using vibrating equipment. The superior quality and reliability of the OMB vibrators are the result of over thirty-years of vast experience in addition to continuous and constant research and innovation. The most up-to-date training remains a constant in every level of our organisation.

Main applications: Bins discharge ,filters cleaning ,small sieves,etc.
